

Mon 3/13/2017 New Energetic Ideas for the New Year - 2017
The Edge of Chaos Atrium, 1700 University Boulevard, Birmingham AL 35233

Time	Presenter/Facilitator	Topic/Task
9:00 AM 10 min	David Allison	Welcome, Introduction, Overview
9:10 AM 30 min	Lua Wilkinson Mary Latimer	Select 6 papers (3 each) from the literature on obesity or energetics from the last 5 years that you judge to be at the pinnacle of importance, impact, or beautiful creativity and make a brief presentation about them offering views on why the papers chosen made the list and general principles extracted about what makes papers important, impactful, beautiful, or creative.
9:40 AM 30 min	Camille Schneider Jennifer Davis	Choose least 6 funded NSF obesity or energetics-oriented grants (3 each) that you judge to be especially cool and creative and extract some principles as to what made them so cool.
10:10 AM 30 min	Sarah-Jeanne Salvy Liou Sun	Choose 4 funded Transformative R01 grants (2 each) and 4 NIH Pioneer Awards (2 each) from NIH RePorter (call these grants Group A). Choose 8 ordinary funded R01s (4 each) with an 'A1' designation from NIH RePorter (call these grants Group B). Compare Group A to Group B and try to extract some principles about what makes them different.
10:40 AM 20 min	Rachel Orlandella Amber Kinsey	Choose 4 F31 or F32 grants (2 each) funded by NIH (from NIH RePorter) that are related to obesity or energetics and which you think are especially interesting and describe what makes them so interesting.
11:00 AM 20 min	William Neumeier Stephen Carter	Choose 4 K grants (2 each) funded by NIH (from NIH RePorter) that are related to obesity or energetics and which you think are especially interesting and describe what makes them so interesting.
11:20 AM 5 min	Anarina Le Murillo	"The MacArthur Fellows Program celebrates and inspires the creative potential of individuals through no-strings-attached fellowships." From: https://www.macfound.org/programs/fellows/ . Please pick one person who does obesity/energetics research at UAB (they could be mentorees, faculty, or staff but may not include you, your mentor(s), or the NORC director) and imagine that you have been asked to nominate that person for the MacArthur fellowship. For the nominee write and then read aloud a nomination explaining why the nominee's obesity/energetics research or ideas merits a MacArthur fellowship.
11:25 AM 10 min	Mary Katherine Osborn Ray Rachel Harley	Please pick 2 people you may or may not know who do or have done (they can be living or deceased, current or historical) obesity/energetics research that you think is especially creative or impactful and who are <u>NOT</u> at UAB. Imagine that you have been asked to introduce the three as they are being announced as either this year's Lasker Award winner (one), Ted Prize winner (another), or Shaw Prize winner (the third) for their obesity/energetics research. Read each of the three introductions out loud, emphasizing what made/makes their research so creative, cool, important, or beautiful.
